

SeaChange™ VSSX > Video Server Security Extensions

How much is your ad-insert revenue or pay-per-view revenue worth? SeaChange VSSX™ real-time virus scanning provides critical protection against viruses and Internet worms for SeaChange video servers - including servers running Windows NT3.51.

SeaChange VSSX includes Command Antivirus™ leading heuristic and signature-based virus scanning. Fully-certified by ICSA & CheckMark, and a multi-time Virus Bulletin award-winner, Command Antivirus is the choice of hundreds of IT departments in Fortune 500 companies, leading educational facilities, and government agencies around the world.

Advertising & PPV Revenue Protection

Talk with an Authentium AV Matrix antivirus expert today to find out how VSSX can help protect your most important revenue streams from service interruption and replacement costs.

key features

>> INTELLIGENT VIRUS PROTECTION

Based on the proven F-Prot Professional scanning engine and Authentium dynamic data interception technologies, and developed continuously over a period of ten years, SeaChange VSSX deploys more easily, detects more viruses (and potential viruses), scans more file extensions, and returns fewer false positives than competing antivirus products.

>> AUTO-UPDATING CAPABILITIES

Authentium's auto-updating technology enables around-the-clock, and around-the-world protection against worm and virus outbreaks.

- In-house virus experts in multiple time-zones— facilitates fast response times
- Dynamic updating capability reduces need for rebooting when applying updates

>> PRE-TESTED ON SEACHANGE SERVERS!

SeaChange VSSX has been extensively tested at Authentium's QA Labs, and at SeaChange product testing facilities, on standard SeaChange NT 3.51 Video Servers—and is the only product designed specifically to retro-protect NT 3.51 servers.

>> ZERO-COST PRODUCT UPGRADES

Ready to upgrade to a new SeaChange Video Server? Just let us know, and we'll apply what's left of your existing antivirus contract to your new equipment. Need insurance? Ask our sales reps about OneCover cyber-risk insurance.

>> CUSTOMIZATION OPTIONS

Authentium VSSX provides custom product customization and specialized deployment options, including custom file extension support, multiple scan engine deployment, and object code software development kits.
