

# Authentium Sales Reference Card

## Galileo vs. ESP Enterprise

ESP Enterprise takes central management to the next level—enabling built-in procurement, compliance, reporting, and a choice of applications from leading vendors—all in one easy to operate, integrated solution, at an affordable price. Authentium ESP Enterprise Security Manager is the only multi-vendor policy management tool available—nothing gives your customers more flexibility when it comes to maintaining client security and service levels.

▼ CUSTOMER BENEFITS	▼ RESELLER BENEFITS
<p><b>BUILT-IN PROCUREMENT &amp; COMPLIANCE</b> The ESP License Manager enables you to procure licenses, and know instantly your license compliance status.</p> <p><b>COMPREHENSIVE REPORTING</b> Deployment, installation, updating, intrusion and threat detection—for all supported vendors, using Crystal Reports.</p> <p><b>REAL-TIME UPDATING &amp; ALERTS</b> Updates automatically download and install at every end point—and can be prioritized by group, vendor, or device.</p> <p><b>EASE OF USE, UNLIMITED CHOICE</b> You'll never have to buy another central management tool—ESP was designed to support multiple vendors, enabling you to spend less time worrying about security vendor decisions, and more time running your business!</p>	<p><b>EASY TO SELL—MILLIONS OF POTENTIAL CUSTOMERS</b> ESP is ideal for novice or experienced security administrators and combines ease of use and attractive, flexible pricing.</p> <p><b>MASSIVELY SCALABLE RECURRING REVENUE</b> ESP enables you to build highly-profitable businesses based on multiple vendor relationships.</p> <p><b>EASY TO DEPLOY AND MANAGE</b> Wizards enable fast, straightforward procurement, download, configuration and deployment of multiple security modules.</p> <p><b>MULTIPLE VENDORS MEANS MULTIPLE SALES</b> The ESP Enterprise VIP Vendor Integration Program enables easy integration with leading security vendor services—which means new applications are coming on line every month. Best of all, ESP is <i>brandable</i>!</p>
